MEMORANDUM FOR: Under Secretary of State for
Economic Affairs

Dear Mike:

Attached is a paper, "The Reliability of Poland's Armed Forces," that bears on the changes in the strategic posture of NATO in Central Europe. The paper is cautiously worded and I believe the reality is rather worse from the Soviet standpoint. It does as far as analysts here are prepared to go at this point (and is probably more than we could get out of an Intelligence Community-wide estimate at this juncture).
